Hello,

I am following up with you about the name violation of your [Facebook website](https://www.facebook.com/partypondsociety). The requested changes have not been made yet. If these changes are not made by December 1st, I will be writing your club's advisor to let them know about the ability to apply for things like CFC or beyond tolerance grants.

The name of your facebook page "Party Pond Society" and "UC Davis" in "adod Davis" is indeed in compliance. The website domain URL is still in violation: <https://www.facebook.com/groups/1442memorialunion/>

Please make the specified changes to the URL - update the URL on the website and on the Facebook page. If you do so, just your club can remain in good standing.

Sincerely,  
CSI Staff  
A.N.
