Re: **Wilson College**

Dear Ms. Sweeney:

I represent Wilson College and have been asked to respond to your letter of May 2, 2006.

~~As discussed, Wilson College's investigation is not yet completed. Issues include~~  
but are not limited to, whether Wilson College students created the MySpace.com profile and whether students posted material on the profile. There are also concerns about whether the students have been truthful with College officials about their activities. Although your letter of May 2, 2006 is carefully worded on this issue, you state in the letter that although the students deny creating the profile, that the profile was blank when they first learned of it and they "accepted the invitation" to become "friends". I assume, therefore, that each of them posted material on the profile. This is something that we will need to take into consideration in making our decision.

~~When we believe that we have all of the facts, the College will employ its normal internal~~  
~~processes to resolve the issues, including the information at our honorment policy, to be~~  
internal issues which should be decided through those processes.

~~As discussed, we will continue to communicate with the students involved and make certain that the rights they have external to~~  
~~the College and within the College policies are protected.~~  
continue to communicate with the students involved and make certain that the rights they have external to the College and within the College policies are protected.

Very truly yours,

David R. Keller
