Dr. Black

My understanding of our meeting on August 7, 2009 is that...

You commenced the meeting by stating that I was a divisive force in the college  
at

I asked you if you had anything further to say, and you replied "No."

I asked Mary Smith, who was also present, if she had anything to say, and she replied "No."

I said, "Thank you and Good Day," and left your office.

Please verify this record of the meeting. If I do not hear from you within three days, I will presume that you agree with this account of our meeting
